

**Subject: OVERTURNING of EXCAVATOR**

## **What's Happened?**

An excavator has overturned whilst being used as a lifting appliance to unload a site delivery.

## **How Did It Happen?**

The incident is still under investigation.

## **Recommendations and Lessons to be learnt**

Excavators MUST NOT be used for lifting unless:

- A Lifting Assessment has been carried out for the lift AND
- Method Statements and Risk Assessments are in place and have been thoroughly briefed to all operatives on site

If you are in any doubt as to what is required, please contact the HSQE Dept.
