

PROJECT MANAGER (RAIL & CIVILS)

We require a Project Manager with a varied rail and civil engineering background with experience of supervising construction projects in water, structures, rail and highways environments. Ideally, candidates should have at least five years experience of successfully managing projects from £0.5m to £3.0m in value.

Candidates should be Degree qualified in civil engineering / construction management or possess HND equivalent and also possess other relevant industry accreditations pertinent to the role.

We offer guaranteed continuity of work in the north west area of England and excellent remuneration packages.
